Nonprofit mobile healthcare services

Mobile Integrated Healthcare (MIH)

The Mercy Flights Mobile Integrated Healthcare (MIH) Team provides quality healthcare that is tailored to the individual needs of each patient (and families), from primary care to mental health and complex needs.

MIH Services in Jackson County

Our MIH team provides a variety of healthcare services, including:

- Quick response to patient needs.
- On-the-spot healthcare treatment is provided in the convenience of the patient's home.
- An alternate response to those who are experiencing behavioral health crises and need of non-emergent treatment, reducing the necessity for a full multi-emergency service response, including police, fire, and ambulance.
- Provides post-hospital care, focusing on chronic disease management, health education, and medication education and management.
- Coordinated care between the patient, their family, and their healthcare team to ensure everyone is on the same page.

Our team is made up of specialized healthcare professionals that are in place to keep our community healthy.

Our goal is to bring patient centered care to our neighbors by doing the following:

#1: Improve Our Patient's Health Outcomes

We create personalized healthcare plans based on the patient's and family's lifestyle, including plans that address diabetes, hypertension, weight management, mental health, and more.

#2: Build a Support Network for Our Patients

We partner with local organizations to provide high-quality healthcare and social services that are affordable or at no cost to the patient.

#3: Provide a Better Quality of Life

We believe that quality healthcare means providing the patient with the right care, at the right time, and in the right place.

Connect With Us

We value our partnership with local healthcare providers and are always looking for ways to streamline patient care and remove barriers to meet the healthcare needs of our community.
